

Editor's Message

The European Journal of Social & Behavioural Sciences (EJSBS) is published on behalf of the Cognitive-Counseling, Research & Conference Services. This is the first volume of the journal. The major objective of The EJSBS is to provide an effective communication channel for researchers concerned with all aspects of Behavioural Sciences. With such regards EJSBS, hence, intends to provide an international forum where researchers, practitioners and professionals interested in advances and applications of social and behavioural sciences can exchange the latest research, results and ideas. In this first volume of the journal, seven papers were selected for publication.

I am honored to serve EJSBS as an editor. I appreciate the contributions of all authors who have brought new insights into the field. And I would like to thank the referees for carefully reviewing the manuscripts and providing many constructive feedbacks.
